

OPERATIONS OF THE POSTAL SAVINGS SYSTEM, 1938

LETTER

FROM

THE POSTMASTER GENERAL, CHAIRMAN OF THE
BOARD OF TRUSTEES

TRANSMITTING

THE REPORT OF OPERATIONS OF THE POSTAL SAVINGS SYSTEM
FOR THE FISCAL YEAR ENDED JUNE 30, 1938

JANUARY 4, 1939.—Referred to the Committee on the Post Office and Post Roads
and ordered to be printed

POST OFFICE DEPARTMENT,
OFFICE OF THE POSTMASTER GENERAL,
Washington, D. C., January 3, 1939.

The SPEAKER OF THE HOUSE OF REPRESENTATIVES.

SIR: On behalf of the board of trustees, I have the honor to submit herewith, as required by section 1 of the act approved June 25, 1910, the report of operations of the Postal Savings System for the fiscal year ended June 30, 1938.

At the close of the year there were 8,050 depositories in operation, including 805 branches and stations, a net decrease of 18 depositories during the year.

The outstanding principal to the credit of postal-savings depositors, represented by certificates of deposit, was \$1,251,799,180, a decrease of \$15,874,560 over the amount for the corresponding date last year.

The number of depositors decreased from 2,791,371 to 2,741,569, the loss in accounts being 49,802, or 1.78 percent. The average principal per depositor increased from \$454.14 to \$456.60, a gain per capita of \$2.46 or 0.5 percent.

Postal-savings funds were held at the close of the year by 3,020 banks, as against 3,220 a year ago, of which 1,619 were national banks, 252 State banks, members of the Federal Reserve System, and 1,149 State banks, nonmembers. At the close of the year, these banks,

as shown elsewhere in this report, held postal-savings funds in the amount of \$114,654,886.89 to the credit of the board of trustees.

The board of trustees, under the authority of the Postal Savings Act, invested \$3,492,420 during the year in postal-savings bonds, having purchased them from the holders at par and accrued interest, which makes the total holdings of such bonds \$24,743,580, after deducting matured 20-year bonds of the thirteenth and fourteenth series. During the year the board of trustees increased their holdings of other United States securities in the amount of \$1,617,000, par value, at a cost of \$1,571,399.37. The aggregate investment, as of June 30, 1938, in securities of the United States Government, was \$1,094,832,230, par value, and \$1,102,874,086.27, book value, allowing for amortization charges.

Eight thousand two hundred and thirty accounts, aggregating \$75,813, have been transferred to the division at Washington and are held by the board of trustees on June 30, 1938, as unclaimed, having been inactive for 20 years.

The System, which has always been self-supporting, realized a net profit in the fiscal year 1938 of \$6,413,569.72, after deducting departmental and Postal Service expenditures amounting to \$4,719,598.73.

Financial statements and statistical tables, giving detailed information as to the operations of the System, are appended.

Respectfully,

JAMES A. FARLEY,
Postmaster General, Chairman, Board of Trustees.
